

TOWER Software

TOWER Software has document management software solutions on over 150,000 desktops around the world. Their products provide a high security environment in which businesses can manage their internal knowledge to improve their workflow procedures, space management, e-mail integration and version tracking.

TOWER Software began operating in 1985 in Canberra and has grown from a staff of two to over 100 around the world. It now has offices in the UK, USA and Canada.

TOWER Software markets its products through a worldwide channel of business partners. This partner program brings together the industry's top value-added resellers, independent software vendors, system integrators, consultants, service providers such as Microsoft and EDS to deliver complete solutions and services to customers worldwide. These strategic alliances with other industry leaders have contributed to TOWER Software's success in product development, customer satisfaction, and worldwide market penetration. It has partners in Australia, Canada, Europe, East Africa, Iceland, Malaysia, the Middle East, Singapore, South Africa and the USA.
