

International Development at UQ

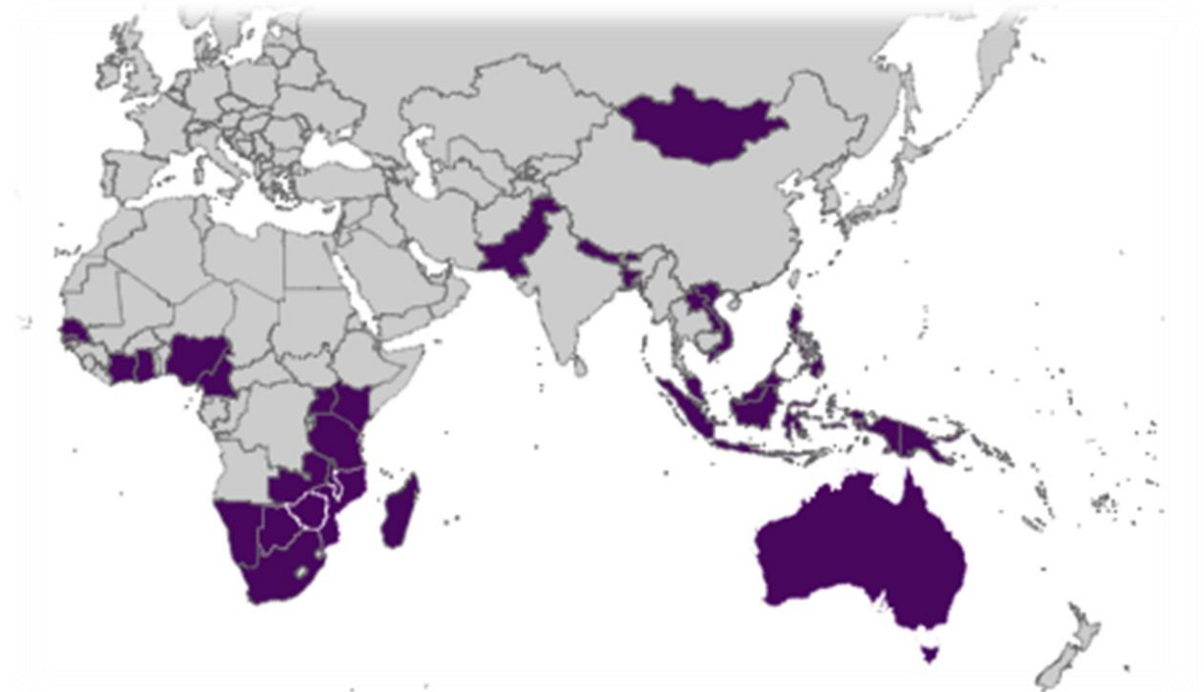

Challenges And Benefits Encountered In Delivering
International Development Projects

Joel Bird
Senior Development Coordinator

Introduction

The University of Queensland's International Development unit

- Specialist unit – securing and managing delivery of development projects and services
- Leveraging expertise and research knowledge of the university and our networks.
- Projects span a range of areas including:
 - Skills Development
 - Leadership and Governance
 - Public Private Partnerships
 - Public Policy and Diplomacy
 - Entrepreneurship
 - Climate Change
 - Law and Justice
 - Mining and Resources
 - Agriculture and Fisheries
 - Public Health

Project Delivery Locations in 2017/18 (includes multiple Pacific Island Countries)

Precinct Leadership Program

Tips for Success

- Play to your strengths
 - UQ holds extensive expertise in Leadership and Governance
- Work collaboratively with Partners, especially in-country for sustainability
- Communication, as always, is critical

Challenges

- Complexity of Stakeholders
- Scope Creep

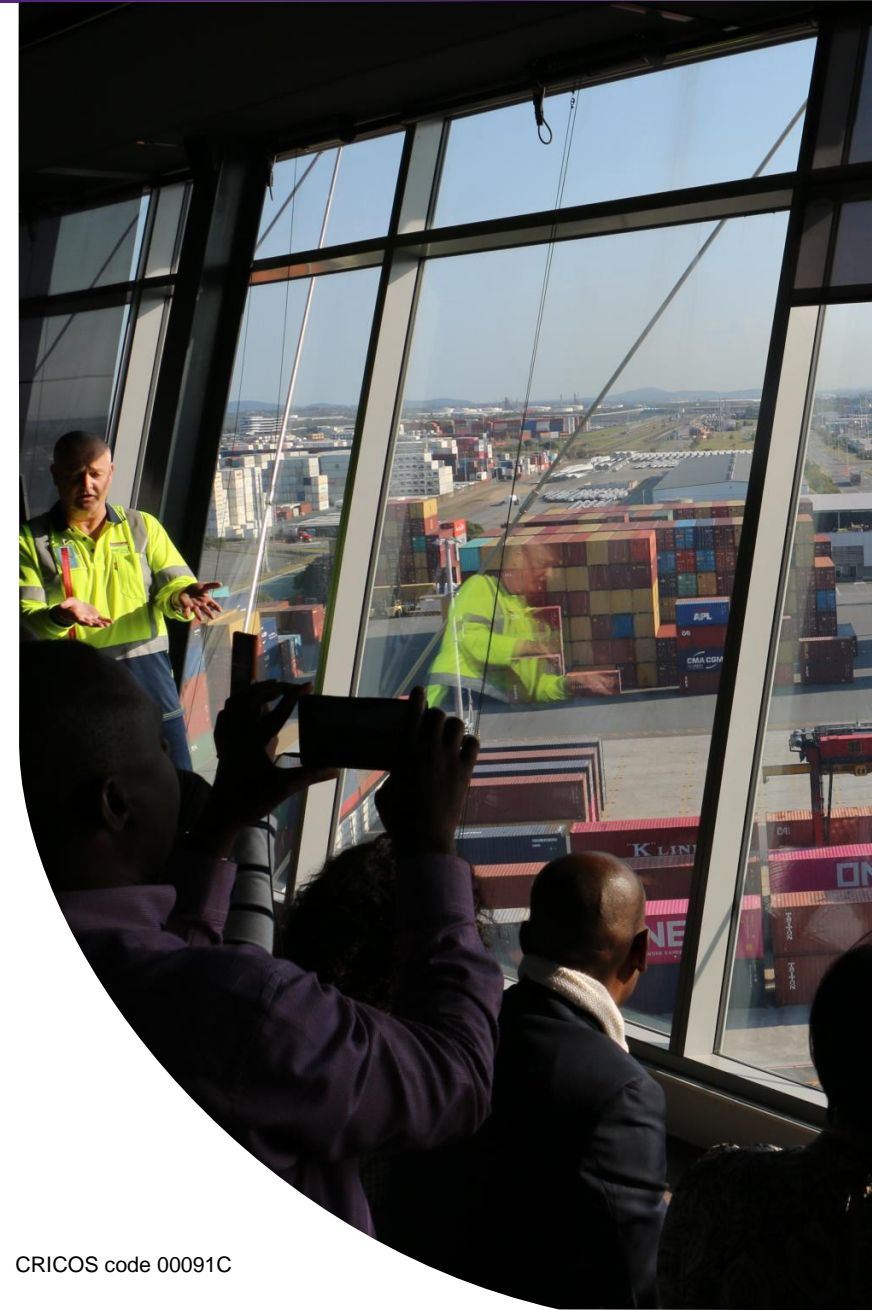

Public Private Infrastructure Partnerships Short Course

Tips for Success

- Long Term, multiple deliveries, creates sustained impact
- At tender stage, articulate vision and goals, but within the vision of the RFT
- Utilise and showcase the knowledge of the participants
- Engagement of experts with practical experience

Challenges

- Diversity of target participants and communities
- Constraints on securing key experts.
