

# COMMERCIAL INTERNATIONAL FLIGHTS

## OUTBOUND FLIGHT OPTIONS AS AT 16 JULY

A number of airlines are continuing to support freight in and out of Australia on commercial freight-only flights. Please note the below list is not comprehensive. The best way to access these flights is through standard freight operations channels, including your **freight forwarder**.

The following information outlines the airlines who are continuing to run air freight options for exporters **as at 16 July 2020**.

**These flights are not supported by IFAM, but this list has been prepared to help Australian businesses understand commercially available options for airfreight outside the IFAM.**
