

INTERNATIONAL FREIGHT ASSISTANCE MECHANISM

INBOUND FLIGHT SCHEDULE AS AT 6 AUGUST

The Australian Government's [\\$110 million International Freight Assistance Mechanism](#) (IFAM) is a temporary measure to help restore critical global supply chains which have been heavily impacted by COVID-19 containment measures around the world. IFAM is necessary to ensure essential imports such as medicines and medical supplies can be transported to Australia. It also provides the opportunity, on the outbound legs, for producers of high-value agricultural and fisheries products, and other items of national interest, to resume servicing supply contracts with their international customers.

The following information outlines the inbound flights supported by IFAM **at the time of publishing**.
